## PROFESSIONAL EXPERIENCE

10/2023 - now

**Full Stack**, Furando a fila / Plin Tech , Brasilia, DF

— React.js, Redux-toolkit,Styled-Components, Jira ,Git/github.

— Next, Nest.js, Prisma,Prostegress, Ts

As a full stack developer, it was possible to create b2b ticket shows software in which producers could create their event and use a website that appeared to be their own website, so every topic involving box office events would be more specific and marketing ,target audience and easier to manage.

12/2022 - 06/2023

**Full Stack**,Roadr, Los Angeles, Califórnia

— React.js, Redux-toolkit.ts, Styled-Components, Jira ,Git/github.

— Node.js, MongoDB, Ts.

Working with react and node/mongodb, I created and helped to design a main and server website whose main objective was a service request web-app, for sales and work organization of professionals, it was the cultural experience and better understanding of the "work from everywhere" in addition to, of course, practicing English more..

04/2020 - 11/2022

**Full Stack**, Inside the Box, Florianopolis, SC

— React.js,React native, Redux-toolkit,Styled-Components, Mui, Jira ,Git/github.

— Node.js, Prisma,Mysql, Ts,Js.

Trabalhando com react , ts , node e react-native , compreendi como criar e modular um site/app, utilizando prisma e diminuindo tempo de request e fazer de maneira limpa e clara seguindo instruções do figma, trabalhei em equipe utilizando métodos do kanban, acompanhamento de sprint, dailys e reuniões mais longas quando necessário.
